## Helpful Tips to assist you in keeping your costs down throughout this process:

1. Upload your documents to Dropbox (or other) and invite us to the folder!
2. Create Folders and subFolders to organize documents for efficient use with Cathy Daigle, LLC.  
Main Folders: Assets, Debts, Income, est. Expenses, Other  
Subfolders:  
Assets: Real Estate. Deposit Accounts. Retirement Accounts. Equity Incentives. Liquid/Brokerage.  
Debts: Real Estate. Auto. Credit Cards.  
Income: Paystubs. Tax Returns. Social Security.
3. If possible, utilize the PDF format when providing a soft copy of your document. Other formats (i.e., JPEG), may be converted to PDF in our office and require additional time.
4. Provide documents on 8-1/2" x 11" paper, if not uploaded to Dropbox.
5. Use white paper; color paper does not scan well.
6. If you use highlights via a software package (i.e., Excel) or a highlight marker, use only yellow. Colors other than yellow show up as dark marks once scanned and require additional handling.
7. If you follow this list and provide only those documents being requested, you will minimize additional time and cost sifting through documents not required (i.e., an entire home refinance packet).
8. Scanning your documents by us is an option and may take additional time on our part. Please call me if you wish to pursue a method that makes it more efficient and saves our processing time.
9. If an account is not readily discernible, feel free to add explanation for better understanding.
10. Provide a soft copy of your excel Living Expenses spreadsheet(s).
11. If you have foreign accounts with statements written in another language, please provide interpretation for the value of the account, type of account, who the account belongs to, etc.
12. Credit Reports - review your credit report and provide statements for open accounts even if a -0- balance. Print only one report for each person; preferably from a different company. Look for open credit cards and jointly held cards you may have forgotten about.
13. If you provide hard copies of documents, there is no need to place documents in a binder.
14. Your own summary spreadsheets of assets and debts are not needed; however, if you provide one, make sure they match your statements to minimize additional handling costs.
15. PDF file passwords: If your file is password-protected, please provide the password. Sometimes, however, accountants, banks, brokerage houses, etc., will also include document restrictions such as changing the document or extracting pages from the document. When this happens, we may only be able to print the document and then scan it in order to combine that document with your other papers. If you notice document restrictions, it would be helpful if you changed them prior to sending the pdf file.
